RE: Phyllis Bodel Childcare Center at Yale School of Medicine, Inc, Follow up Field Trip.

To Whom It May Concern:

The children and teachers of the pre-school and Kindergarten wish to express their sincere appreciation for the opportunity to have the children (tool belts and all) go to the second floor to see the final product of the year long hammering, drilling and banging. Larry Litevich and his wonderful staff have worked hard to minimize the stress on the children and staff and to make the children feel a part of the construction process. On behalf of all of us at Phyllis Bodel Childcare Center we want to thank the Taulman Construction Co. and Larry for this unique opportunity. The children will really miss seeing Larry when the construction is done since it is a chorus of "Hi, Larry" whenever they see him.

A sincere thank you to Taulman Construction for all you have done to make this renovation work for and with the fifty children who shared this work site each day. A very special thank you to Larry Litevich, who worked with the children and staff, to ensure that the Center ran smoothly, regardless of how difficult it may have made his job,

Sincerely,

Cynthia Olson, Director
